Turnstiles: Two Leg Slimline Waist Height

iMAT's two leg slimline waist height turnstiles are installed throughout the world. Our turnstiles are used for bi-directional access control, perfect solution for crowd control, ensuring safety, convenience, and security. Our two leg slimline waist heights provide years of trouble-free operation and superior quality turnstiles. They are durable, weather resistant and come with smooth, reliable operation. They are suited to a wide range of environments and can be integrated with access control systems.

Features:

- Bi-directional
- Manned with a lower degree of security.
- Control of staff movements.
- Control of entrances and exit.
- Safety configuration for power failure and/or emergency situations.
- Adjustable transaction timeout.
- Smooth mechanical operation.
- Tamper proof design.
- Random search (Optional)
- Battery Back-up (Optional)
- Optional Hydraulic damping system for quieter operation.
