Gates: Speedgates

iMAT speedgates are the ideal solution, providing reliable barrier performance with smooth and quiet operation. Designed to operate in both directions, they offer a balance of functionality and visual appeal, making them well-suited for areas with high pedestrian traffic.

Features:

- Bi-directional.
- Unmanned with lower to high degree of security.
- Basic entrances and exit control.
- Safety configuration in emergency situations and/or power failures.
- Glass wings retract into the cabinet.
- Optical safety sensor array.
- LED array status indicators.
- Smooth and fast mechanical operation
- Tamper proof design.
- Random search (optional)
- Battery backup (Optional)
- Unlimited number of lane configurations.
- Available in 600mm and 900mm options.
